

RHODE ISLAND NATIONAL GUARD VENDOR OUTREACH EVENT

The RI National Guard is currently working on establishing a Multiple Award Task Order Contract (MATOC) for construction/repair projects up to \$5M, with a primary NAICS code of 236220. This will be a Small Business set-aside.

The RI National Guard is also in the early stages of establishing a requirement for a single award Architect-Engineering Indefinite Delivery Indefinite Quantity (AE IDIQ) type contract to assist with the development of design packages for construction and repair projects under \$5M.

The RI National Guard routinely solicits for a multitude of supplies and services necessary for our soldiers and airmen to carry out their mission safely and successfully. The supplies and services include, but are not limited to food, tools, personal protective equipment, environmental services, IT products and services, meeting space, communication equipment, furnishings, etc.

Contractors who would benefit most from this event include Commercial and Institutional Building Construction/Construction-related firms, Architecture and Engineering Firms, and those who can source the above supplies and services.

Presenter

Captain Timothy J. Caron,
Supervisory Contract
Specialist, Rhode Island
National Guard

DECEMBER 8, 2016
